Tutoring Experience

For the past five years, I have worked with IB and IGCSE students across Denmark and internationally, focusing on improving their understanding of key topics such as population dynamics, geopolitics, and sustainability. Many of my students have gone on to achieve top grades in Geography at both SL and HL levels.

I've also collaborated with students preparing for IGCSE Humanities, providing targeted support for coursework and exam preparation. My approach combines in-depth subject knowledge with practical insights, helping students apply theoretical concepts to real-world examples effectively.
